- 1 Tray
- 2 Replacement felt pad
- 3 LED, green is Low, red is High
- 4 Diffuser will be warm when plugged in and switched on
- 5 Insert this end into cigarette lighter

Caution:

Do not leave arodrive diffuser unattended with small children or pets. To avoid injury never insert fingers or objects of any kind except the aroma tray into the main body of the diffuser. To avoid potential hazards it is recommended that the diffuser be removed from the cigarette lighter when changing refills. If essential oils cause an allergic reaction, discontinue use.

Instructions:

1. slide tray out of the diffuser and insert one replacement pad into the tray.
2. slide tray back into diffuser.
3. insert diffuser into car cigarette lighter.
4. customise your fragrance level with the 3 stage switch (off, low, high)
5. allow 3-5 minutes for optimal diffusion
6. when on , diffuser will become warm
